25X1

Mr. Dulles:

a) Asked [redacted] to furnish to the Department of State "all the radio has said about the Lebanese situation". The Director also commented we would have a major propaganda opportunity in Lebanon if and when things quiet down a bit. ACTION: DD/P.

b) Noted in view of what had been happening in Latin America he was sure the Vice President upon his return would be "loaded for bear" and stated we should be prepared. [redacted] commented that a memorandum is already in preparation and will be sent to the Director for approval and forwarding to the Vice President.

25X1

Mr. Amory:

Noted that from time to time opportunities are presented to meet with foreign scientists and while it would appear that this might fall within the Exchange Program, funds are not readily available. Mr. Amory recommended that these instances be handled on a case by case basis and that he be authorized to approve in consultation with AD/SI expenses incurred in meeting these scientists. The Director agreed provided this proposal is concurred in by Dr. Wallace Brode, Scientific Adviser to the Secretary of State.
